Debt-Free in 90 Days!

That's right—only 90 days after filing! But the real challenge is coming up with the money to start a Chapter 7 in the first place—because, let's face it, if you're broke, it's tough. That's why we created our **Bankruptcy for only \$250/month** program. **Easy peasy!**

Our attorney charges \$1,595 for a Chapter 7 bankruptcy, and that's a big chunk of change for someone already struggling. Not everyone has a relative to loan them that kind of money! - So how??

Good News!

Here's the good news: In a Chapter 7 bankruptcy, most types of unsecured debt are completely wiped out—like credit card debt, personal loans, medical bills, repo debt, and more. So, if you're planning to file for bankruptcy, why keep paying those debts? It's like throwing your money down the toilet! You can use the money saved for your bankruptcy.

Instead, think about this: This way you can probably save—or find—only \$250 a month. That's all it takes to work toward becoming debt-free! For just \$250/month over six months, you can stop paying on most of those unsecured debts and save yourself some stress and bring hope back. And if you can pay more each month, you'll reach your goal even faster!

While you're paying the \$250/month, you'll also be getting ready to file. You'll work on all the paperwork so that when it's time to file **everything is smooth and easy**. To make it even easier, Cameron Bankruptcy Law is going AI. This will make it the easiest way to file, period.

Watch Out!

Now, here's something to watch out for: By the second month, your creditors will start calling—sometimes multiple times a day. **Don't worry!** If you're in our \$250/month program, we can handle those annoying calls for you after the second month or \$500. **No more stress!**

“But what about my credit?” you might ask. Well, let's be real—your credit is probably not great right now, or it won't be soon. That's why you're considering bankruptcy, right? The good news is that most of our clients actually see their credit scores **go up** after filing bankruptcy! That's because all that debt dragging down their scores gets wiped out. Did you know you can even buy a house just two years after a Chapter 7 bankruptcy—or even during a Chapter 13?

And yes, bankruptcy does stay on your credit report for 7-10 years, but guess what? Bad credit can haunt you for even longer! How long have you already suffered with it?

The Secret

Here's a secret: You can actually get a bankruptcy removed from your credit report shortly after it's discharged. That means future creditors **won't even see it**. After you file, reach out to Kerry, and he'll explain how to do it—or help you find a trusted company to handle it for you.

We don't want to see you as a client again! That is why all our clients take Credit Counseling and Financial Management classes as part of their case!
